

Make a fun reindeer hat!

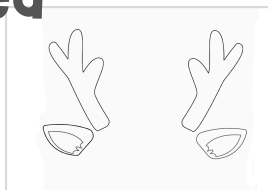

Items you will need

scissors

card strip

antler template

felt pens

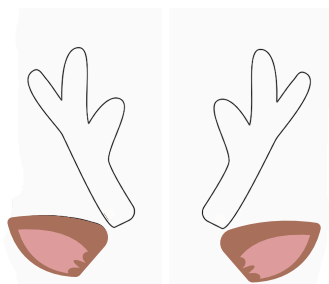

double-sided
tape

Instructions (your grown-up can help)

1. To make this super fun and easy reindeer hat, ask your grown-up to use the card strip to measure your head. Cut the strip to size leaving a slight overlap. Use the glue tape roller to stick the ends together. This is your headband.

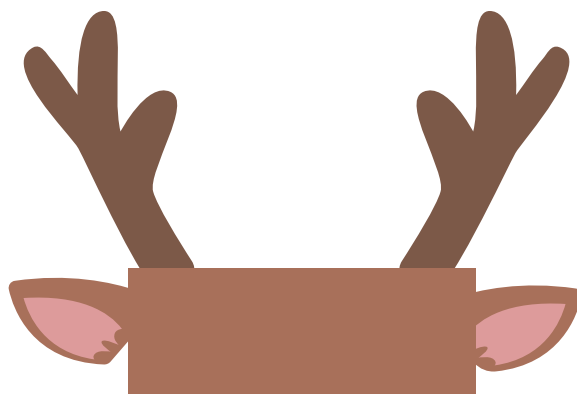

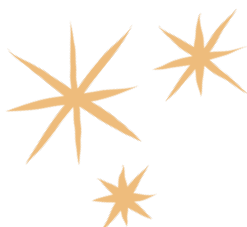

2.

Decorate your antlers in any way you like. You could make patterns or stick on sparkling decorations to make them look super fun and festive!

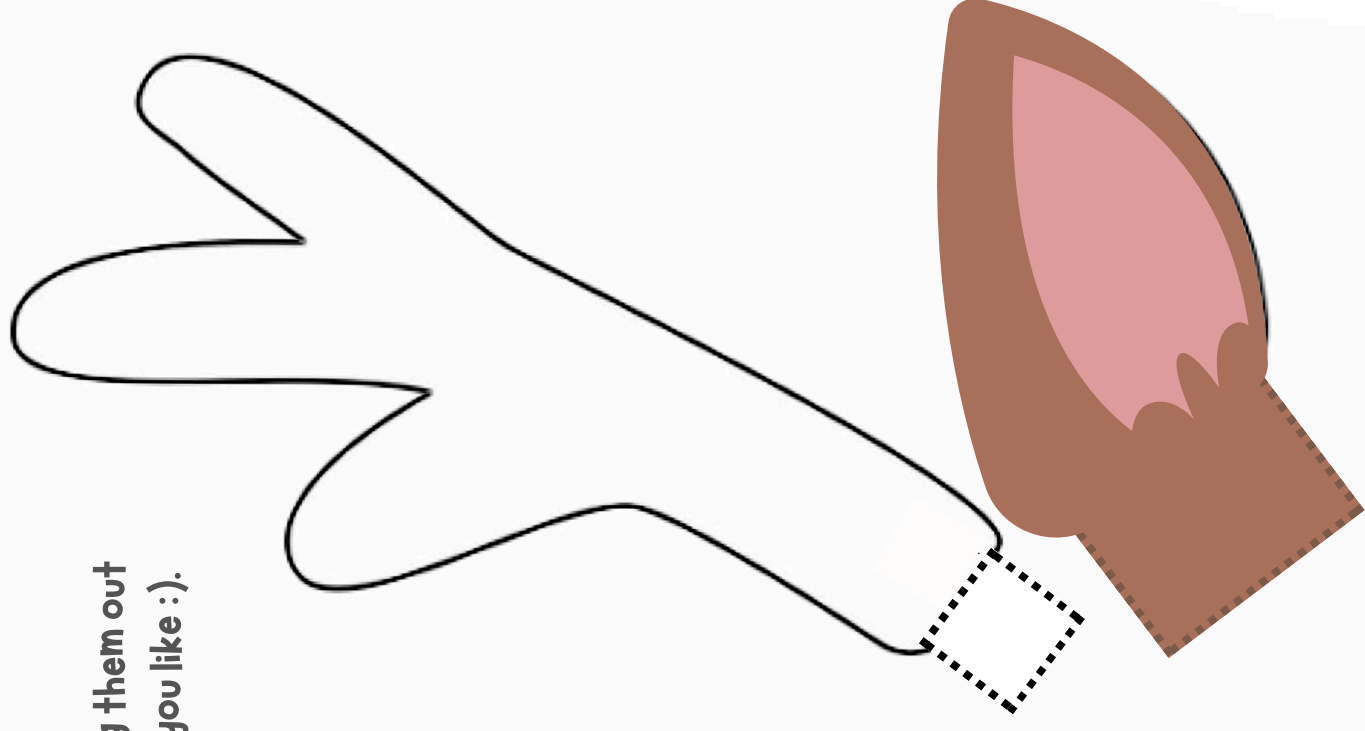

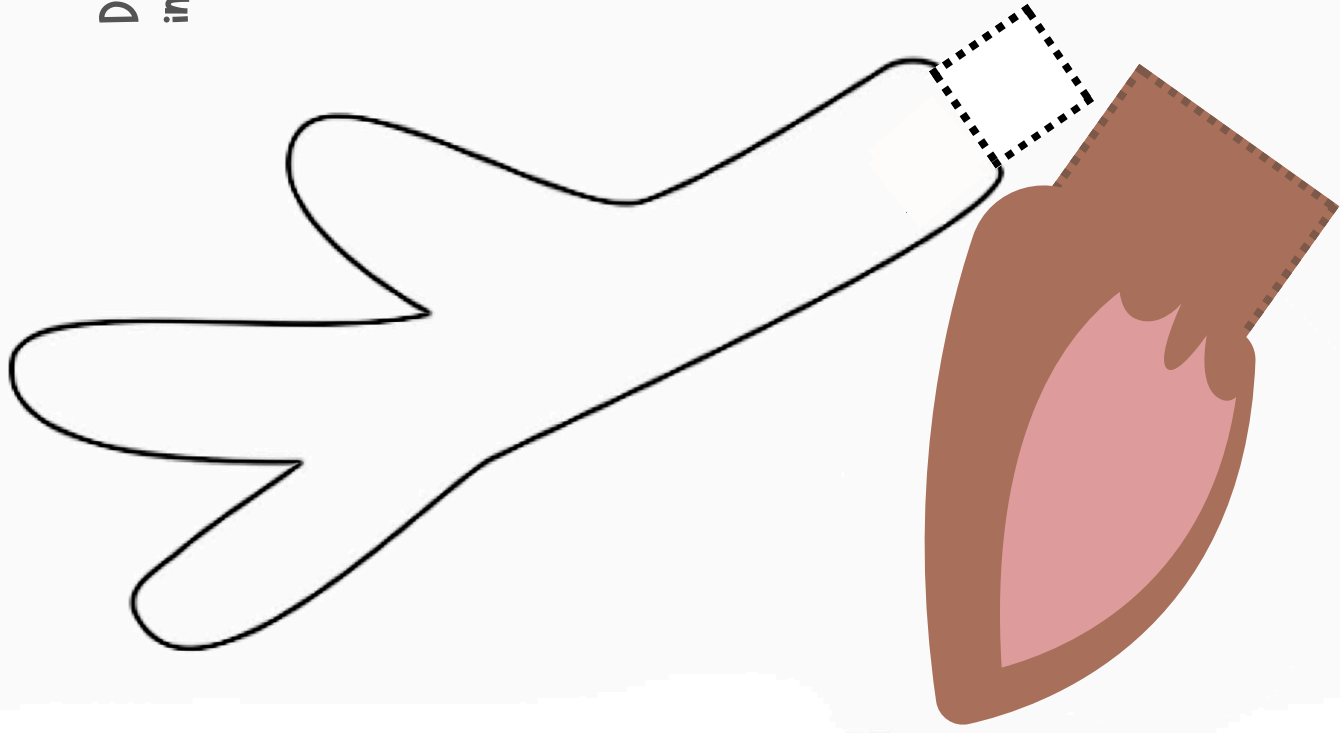

3. Carefully cut out the ears and antlers. Fold the tabs, and tape to the desired place on your headband.

EXCELLENT JOB!

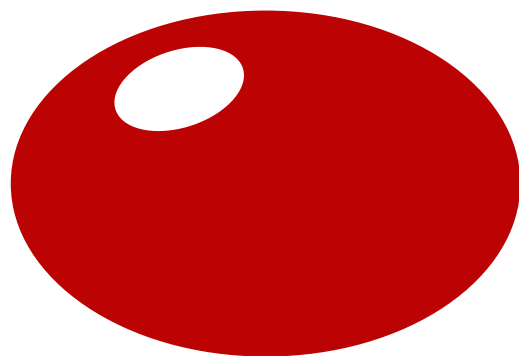

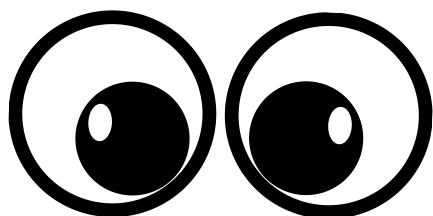

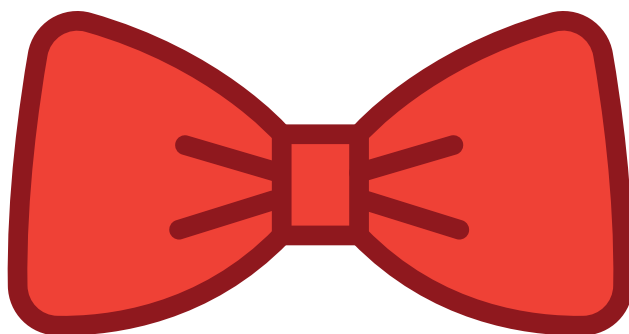

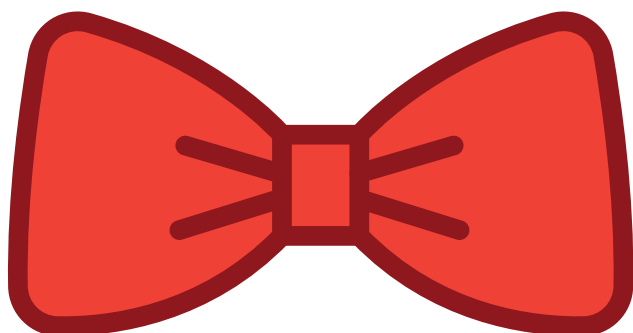

Template

Decorate the antlers before cutting them out in any fun design, colour or pattern you like :).

optional add-on accessories
