

Make a Halloween Treat Basket

Items you will need

scissors

cellotape

felt pens

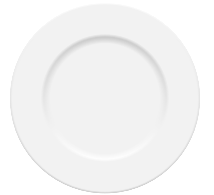

card strip

decorations

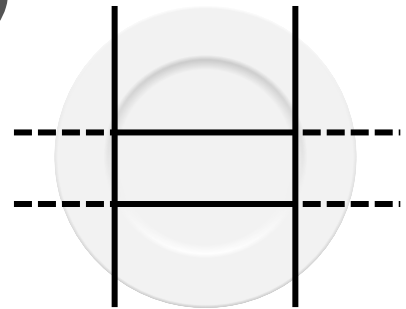

glue

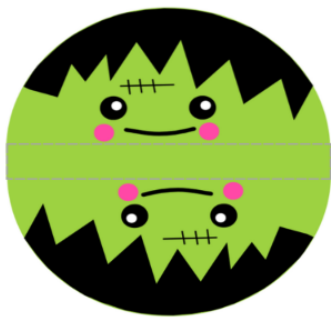

paper plate

Instructions (your grown-up can help)

1. Take a paper plate and on the inside, use a ruler to draw straight lines as shown.
2. With scissors, make 4 cuts in total, only where the dashed lines are indicated on the picture.

3.

Turn the plate over and decorate. Can you see how this example has the same face on each half of the plate? You can do something similar or you can decorate the plate with spooky webs or patterns.

4.

Fold your plate along the lines you had previously drawn and fold in the side tabs so they overlap. Stick these together with a piece of cellotape.

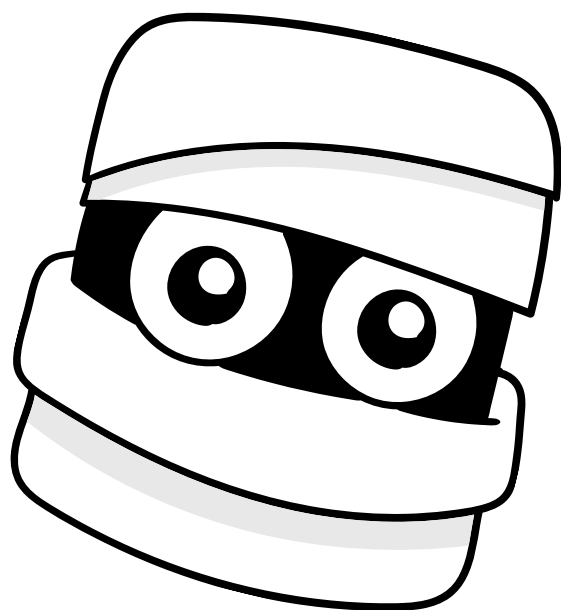

5.

Bend the card strip slightly and tape it to the sides to make a handle. Now you have made a brilliant spooky Halloween treat basket :)
