

# Make a butterfly mobile

## Items you will need

scissors

tape

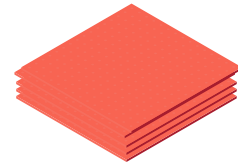

wool

pipe cleaners

stick

napkins

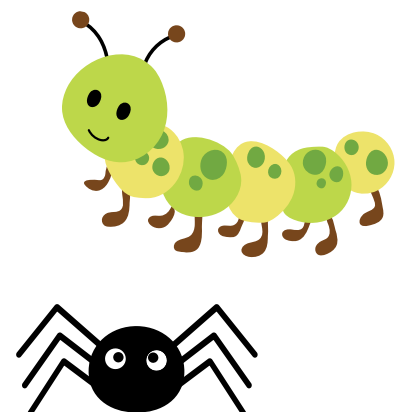

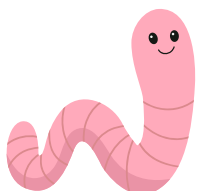

pens

## Instructions (your grown-up can help)

1. Take a stick and wrap it in colourful tapes and wool of your choice.
2. Tie at least 3 long pieces of hanging wool to the stick.
3. Draw out your butterfly shapes on napkins and decorate with dots and dashes.
4. Cut out your butterfly shape and use a pipe cleaner wrapped around the centre, twisting at the top to form antennae.
5. Create at least 3 items to hang from your mobile. Check the reverse of this card for inspiration. You could also create:

- Dragonflies
- Caterpillars
- leaves

# Inspiration

Caterpillars can be made by wrapping a small piece of tissue/napkin loosely around a dowel rod, glueing the edge, then squashing the tissue together. Slide it from the dowel and you can decorate with pens.

Make a dragonfly with tissue or foil wings. Twist around a pipe cleaner for the body leaving a long tail.

- Your mobile can have long strings or short.
- There are no rules, just have fun!
- But don't forget to tie a string for a handle :)
