

Make a fire dragon!

Items you will need

scissors

craft roll

template

felt pens

tissue strips

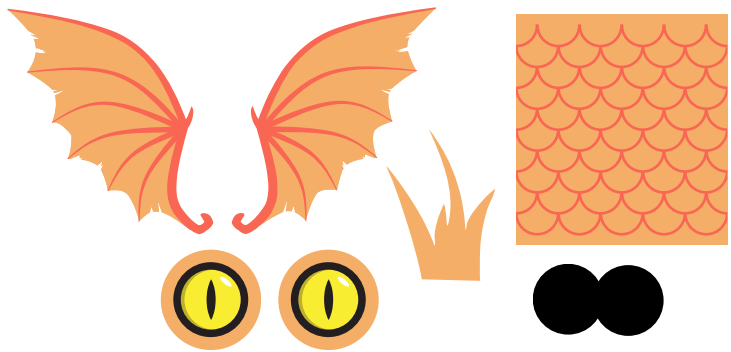

glue

Instructions (your grown-up can help)

1.  Use one craft roll to make the dragon's head.

2. Decorate your template with scales and colour the eyes, wings, nose and hair. Cut out the shapes and glue to your craft roll, start by wrapping the scales.

3.  Cut some long pieces of fiery-colour tissue and glue the end of the strips inside the end of the craft roll.

Blow through the tube to make the flames dance!

Template – to cut and colour.
Dashed lines are tabs to help stick your dragons features together so include them in your cutting out :)
