

Make a fox Mask!

Items you will need

scissors

paper

glue

colour pens

Instructions (your grown-up can help)

1. Can you draw a cunning fox? Draw your own animal or use our template and colour in your very own fox mask.

2.

3.

Don't forget to cut out holes for the eyes. You could even add more decorations like curling paper whiskers or some woolly hair!

4.

Try adding a paper support. Measure a strip of paper the size of your head, glue a folded tab to each side behind the mask. When the glue is dry you can put it over your head hands-free!
