

Make a funny frog!

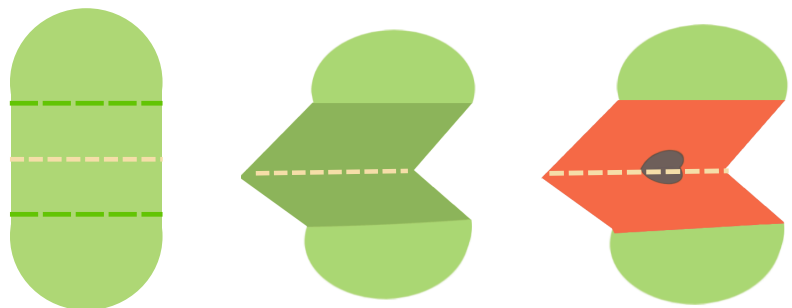

Items you will need

Instructions (your grown-up can help)

1. Cut out and draw around the frog template. If you have an idea for another animal you could try and create your own :)

2. A long rounded rectangle shape is needed for the head. The centre line needs folding toward you, this will shape the mouth.

3. Cut out and glue the body to the chin, add eyes and feet. You can decorate too with patterns.

Glue 4 paper strips to the sides of the mouth at the back, this will make finger loops to help you operate the mouth.

Insert the party blower and have lots of noisy fun!
